

ORDINANCE NO. 117762

An Ordinance designating portions of underground wiring Control District A to be served by Pacific Power & Light Company and Portland General Electric Company respectively and exempting electric utility service within said Control District A from the provisions of Section 12 of Ordinance No. 86333, passed by the Council December 3, 1947, granting a franchise to Pacific Power & Light Company, and declaring an emergency.

The City of Portland ordains:

Section 1. The Council finds that a special underground wiring control district is being established by amendment to the Public Works Code whereby an orderly program of underground conversion should be followed in such special control district to permit the most economical, practical and reasonable provision of underground utility facilities rather than overhead utility facilities in said area; that among others, said amendment to the Public Works Code effects Pacific Power & Light Company and Portland General Electric Company; that in order to facilitate the program of conversion to underground of electric service in said area and in order to permit said electric utilities to arrange their facilities for such conversion, they have determined upon the areas within said special control district which should be served exclusively by each company; that said exclusive service will provide economies to the respective companies and are in the public interest; that therefore such exclusive character of service should provide an exemption from provisions of Section 12 of Ordinance No. 86333, passed by the Council, December 3, 1947, which granted a franchise to Pacific Power & Light Company; now, therefore, the electric service within Control District A established by amendment to the Public Works Code described as follows shall be provided exclusively by Portland General Electric Company:

Beginning at a point on S. W. Jefferson Street at S. W. 6th Avenue; thence west along S. W.
