

ORDINANCE NO. 123394

An Ordinance granting authority to the Bureau of Water Works to locate, construct and perpetually maintain a 5.6 million gallon capacity steel reservoir at a certain location in Forest Park, and declaring an emergency.

The City of Portland ordains:

Section 1. The Council finds that in order to meet increasing demands for water it is necessary to add storage capacity to the reservoir system in the northwest part of the city; that the Chief Engineer of the Bureau of Water Works has proposed that a 5.6 million gallon capacity welded steel reservoir, to be known as Mayfair Reservoir, be constructed in this area and has requested permission to locate it on Park Bureau property at a certain location in Forest Park; that the Superintendent of Parks and the Commissioner in charge of the Bureau of Parks have approved the construction of the proposed reservoir at the site requested; that this proposed improvement will not unduly interfere with recreational use of this property by the public and it is in the public interest to build the reservoir on the site requested; now, therefore, authority hereby is granted to the Bureau of Water Works to construct and perpetually maintain a 5.6 million gallon capacity reservoir together with all utility connections reasonably necessary for the use of the same at a certain location in Forest Park described as follows:
