The City and TriMet are amending the agreement to allow time to continue to work together to provide safe access to transit by extending the termination date of the agreement until July 1, 2018.

Financial and budgetary impacts:

This is not a budgetary amendment. This requires no changes to funds authorization or commits new funds to the project.

Community impacts and community involvement:

The City's Project Manager continues to be responsible for outreach to the community, in partnership with TriMet, per the original agreement. There continues to be strong community support for the RRFBs.
