Subject: "CC2035 Plan Testimony"

Dear Sirs and Madams,

I disagree with the zoning on the Lincoln High School Property for a high rise building. Which do they want? A new high school or an office building? Are you thinking one day by 2035 the football field will be over the freeway? Then that space will be a super high rise?

Then you need to allow the King's hill neighborhood to be able to build high too. The current zoning is too low. You are going to make a dreary little shady pocket if Lincoln High School property gets to go 250', and the section that is low lying between 18th and 19th on Main Street is only allowed to go 100'. Legends already exceeds that. I see there is some kind of bonus height available, but is still makes this area a low pocket. All Portlanders need light and air and blue sky.
