Subject: PSC Fossil Fuel Zoning Testimony

Please consider amending the proposed draft to reflect the city's fossil fuel goals:

- 1) Enact a full ban on all new fossil fuel terminals, large or small. An exception for new facilities that are 5 million gallons or less is unnecessary. The City's code changes should not allow more unit trains of dangerous fossil fuels like Bakken crude oil.
- 2) Strengthen restrictions on expansions allowed at existing terminals by adding binding limits as well as criteria for safety and climate impacts in the City's non-conforming use review process.
- 3) Prevent any aggregate increase in fossil fuel infrastructure in Portland.

Thank You
