Subject: PSC Fossil Fuel Zoning Testimony

Dear City of Portland,

The recent oil train derailment and massive fire in Mosier has reinforced what we all have known for a long time—these trains going to and from Portland are moving BOMBS! Please amend the proposed draft to reflect the city's fossil fuel goals:

- Enact a full ban on all new fossil fuel terminals, large or small. An exception for new facilities that are 5 million gallons or less is unnecessary. The City's code changes should not allow more unit trains of dangerous fossil fuels like Bakken crude oil.
- Strengthen restrictions on expansions allowed at existing terminals by adding binding limits as well as criteria for safety and climate impacts in the City's non-conforming use review process.
- Prevent any aggregate increase in fossil fuel infrastructure in Portland.

Please do not let us down!

Kind regards,

Lee Underwood
