Subject: PSC Fossil Fuel Zoning Testimony

Dear Planning and Sustainability Commission,

As a citizen of Portland and as a human being on planet earth I think it is extremely important to do everything possible to reduce fossil fuel consumption. With that in mind I strongly urge you to do the following:

- Eliminate the Fossil Fuel Terminal Size Threshold
- Regulate Expansion of Existing Terminals
- Prevent Increase in Fossil Fuel Infrastructure
- Strengthen Restrictions on Expansions at Existing Terminals

Thank you,

Heidi Alford
