Subject: SE 20th reclassification

Stop being lazy and follow your own policy and regulations. This is absurd and the worst of our bureaucratic system. Your rationale is based on the fact you currently are not regulating use, that justifies reclassification. We suffer for your lack of oversight currently. Your reclassification is simply unjustified at best and completely hypocrite at worst. Do your job and preserve 20th Ave., our children's route to school and our livability. Stop being a lazy regulator, do your job, take responsibility to do the right thing. I will vote accordingly if you throw us away. I have grown increasingly disillusioned with the City and its short sighted decisions. This is no longer a leadership I trust, and this is coming from a left leaning democrat who works for public agencies. Your public involvement is lip service, a joke, shameful. I never thought I would want to live anywhere other than Portland. Now I would gratefully live anywhere else. The leadership has let my entire neighborhood down. We are sickened. Shame on all of you....PBOT, Leah Treat and City of Portland. Beyond disappointing. You have lost a champion and a friend.
