

I have represented the Homestead Neighborhood Association as its Parking Committee Chair for some time now. Our basic footprint is Marquam Hill in southwest Portland and is home to OHSU and the VA hospital campus. Southwest Terwilliger and Sam Jackson Parkway are the two roads leading up to those facilities and are subject to traffic regulations contained in the Marquam Hill Plan. There has been a constant "creep" exceeding the 6,000 vehicle trips (one way) daily to close to 6,700. The primary limiter to these numbers, is the lack of additional parking. Adding additional commercial parking will in essence attract more dialy vehicle trips in violation of the Marquam Hill Plan. I urge that there be no additional commercial parking be allowed on Marquam Hill.

Steve Gramstad  
Homestead Neighborhood Association  
Parking/Public Safety Chair.
