Support the Community Benefits Agreement (CBA)

The City of Portland should adopt the amendment to apply the CBA to projects over \$25 MM. Unlike the proposed CEIP, the CBA has:

- Real Enforcement
- Real Accountability
- Clear and Strong Goals
- True Partnerships with Industry Partners and Labor
- A Robust Pipeline Mechanism for Employment and Training with the Community

Dear Mr. Wheeler

37329 My name is Vic Liang and programs like Constructing Hope has been nothing but an invaluable asset towards getting me towards a career in the trades and able to provide for my family. These programs may seem costly initially but imagine a city full of people providing for themselves because of these opportunities. Construction is the foundation of this country and I believe we need to step up our game as a state to properly funnel money not only into "traditional" higher education, but also apprenticeships and trades programs.

tangible because of constructing
hope. The training, education and
Job coaching is powerful in
kickstarting my career. The
certification that this program
has provided for me alone will
allow me to outshine other
potential candidates for apprenticeship giving me a foot up on
