Print Name:	By my signature below, I certify that a minimum of fifty (50) percent of the permanently installed lighting fixtures in the above mentioned building have been installed with high efficiency lamps, including compact or linear fluorescent lamps. (Oregon Residential Specialty Code N1107.2 ^[1])
MORSC Section N1107.2. High-efficiency interior lighting systems. A minimum of fifty (50) percent o the permanently installed lighting fixtures shall be installed with compact or linear fluorescent, or a lighting source that has a minimum efficacy of 40 lumens per input watt. Screw-in compact fluorescent lamps comply with this requirement. The building official shall be notified in writing at the final inspection that a minimum of fifty percent of the permanently installed lighting fixtures contain high-efficacy lamps. Screw-in compact fluorescent lamps comply with this requirement.
