

IMPACT STATEMENT

Legislation title: Update Solid Waste and Recycling Collection Code, add definitions and align terminology with Metro (Ordinance; amend Code Chapter 17.102)

Contact name: Pete Chism-Winfield

Contact phone: 503.823.7652

Presenter name: Bruce Walker

Purpose of proposed legislation and background information:

Portland City Code 17.102 Solid Waste and Recycling Collection is recommended to be amended to remove obsolete information, align with Metro Regional Government Administrative Rules, update clean fleet requirements and remove appeals fees.

Financial and budgetary impacts:

Proposed amendments to PCC Chapter 17.102 do not have any financial or budgetary impacts on the Bureau of Planning and Sustainability.

Community impacts and community involvement:

Portland residents and visitors will benefit from continued air quality improvements, resulting in a City with higher standards for human health.

Garbage and recycling companies that provide collection services to residents and businesses in Portland will be affected by these amendments. All companies will benefit from the increase in allowed truck age. Companies will continue to be expected to phase out old polluting diesel trucks and need to invest in newer clean and efficient trucks.

Portland permitted garbage and recycling companies have been notified about the proposed code changes and may testify.

100% Renewable Goal:

These code changes are not related to the City's goal of meeting 100 percent of community-wide energy needs with renewable energy by 2050.
