

TRIMET

Memo

Date: September 11, 2019

To: Portland Design Review Commission

From: Jesse Stemmler Urban Design Lead, Division Transit Project

cc: Caitlin Reff (PBOT), Teresa Boyle (PBOT), Bob Hastings (TriMet),
Michael Kiser (TriMet)

Subject: Division Transit Project Update Presentation to Design Review Commission

Representatives from the Division Transit Project Team look forward to returning to the Design Review Commission on Thursday, September 19th.

The Division Transit Project recently completed 90% design and with this milestone will provide a brief project update and share progress on the project's station design and associated amenities package.

The project team is asking the Commission to review details associated with the custom-designed shelters and amenities package as they are considered to be "non-standard transit element in the right-of-way". With future enhanced transit planned for the region, these elements are envisioned to become standard and replicated in other enhanced transit corridors.

In preparation of our upcoming meeting, we are including the following background information for the project:

- **Division Transit Project Presentation To Design Review Commission (December 6th, 2018)**
- **Updated Project Information Sheet**

We look forward to meeting with you on September 19th.
