Permit Revision Submittal Requirements and Application

A Permit Revision is required when there are proposed changes to the project after the permit has been issued. This may arise due to discrepancies between the city-approved permit drawings and actual field conditions, or the customer has changed their mind about an aspect of the project. In all cases, a revision to the existing permit must be submitted, reviewed and approved.

Applicants will provide:

- A copy of this application
- Three (3) sets of plans that clearly reflect the proposed change(s).
Drawings and calculations must be stamped and signed by the Architect and/or the Engineer of Record, if applicable.
- One (1) copy of the original city approved permit drawings. (NOTE: If your project has an assigned process manager please contact them regarding submittal of the revision).
- Two (2) sets of calculations, if applicable
- Inspector's correction notice, if revision is due to an inspection correction
- Revision fee (paid at time of submittal)
