Hi Dana,

I would like to confirm that your **topic is regarding shelter-in-place villages?**

Regarding your question about screen sharing and videos, it is possible to share your screen and show images, but to share a video with Council, I would recommend that you send it to us before your Communication and we will share it with Council ahead of time. Sharing a video in Zoom doesn't work very well because the bandwidth in Zoom is low, and the video is often very choppy and the image quality is quite poor. If you send it to us a couple days before the meeting, we will send it to Council so they can watch it before your Communication.

Thanks,
