# Planning and Sustainability Commission Hearing on: River Plan / South Reach

## Why am I receiving this notice?

You are receiving this notice because you requested notification of Bureau of Planning & Sustainability projects, you testified at the February 25, 2020 River Plan/South Reach hearing, or have an interest in this project.

## What is this project about?

This project is an update to the *Willamette Greenway Plan* (1987) for an area along the Willamette River from the Ross Island Bridge to the Portland city limits and the Riverdale/Dunthorpe neighborhood of unincorporated Multnomah County. This 20-year plan includes policies, Zoning Code and Map changes, and an action plan, among other things.

The Planning and Sustainability Commission (PSC) held a public hearing and received testimony on the Proposed Draft on February 25, 2020, with follow-up work sessions on March 10, May 12 and May 26. The June 23 public hearing is to receive testimony about recreational boating issues that were not fully addressed and to clarify the roles of City and other government agencies related to recreational boating. The hearing will also highlight how river recreation is addressed in *River Plan/South Reach Proposed Draft*. Those interested in this topic may testify before the PSC.

## How can I review this topic?

A memo on river recreation/boating will be available at least one week prior to the hearing. It will be available on the BPS website under River Plan/South Reach June 23 PSC meeting at: <https://portland.gov/bps/psc/events>

## How can I participate?
