# Historic Drivers of Inequitable Growth

(source: Race Forward, 2020)

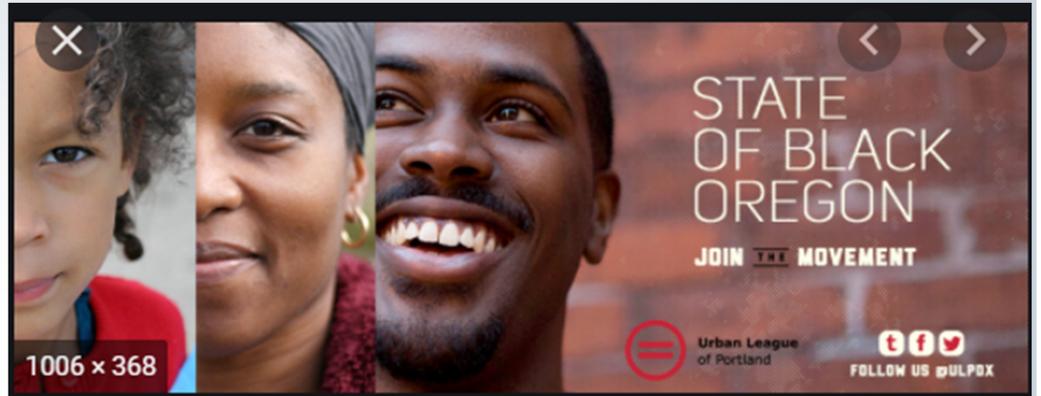

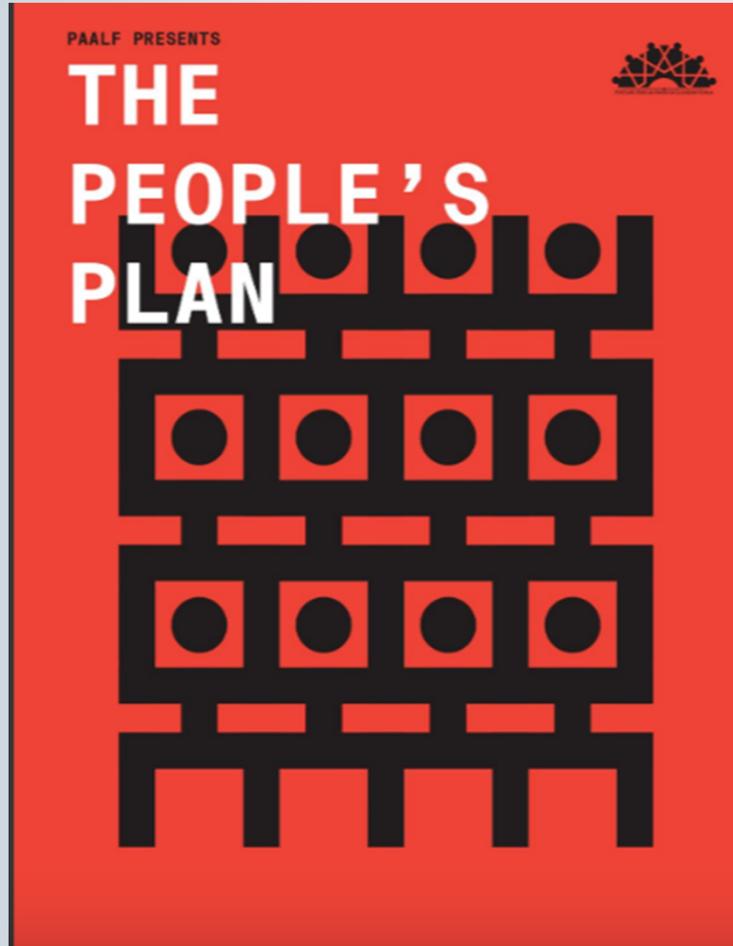

Gentrification makes me feel frustrated because I watch my friends come from all over the city, and I have to move all the time. I've had to move from places that mean a lot to me. They were places where I could just feel comfortable no matter what I was doing. When I see beat down houses renting for thousands of dollars, I wonder what I'm going to do in the future and where I will live in a few years. I have never been someone who is scared of change but honestly this housing epidemic in Portland scares the life out of me.
