Hi,

i support any and all settlements for Quanice Hayes family, though money does nothing to erase their pain. I hope as the city is forced to make more and more of such wrongful death settlements that maybe it will finally figure out that the police system is not financially feasible.

I also want to emphasize that this payment does not end the Quanice Hayes saga, nor the public efforts for justice. Until the officers involved face criminal consequences for their acts, until cops are defunded so that they cannot continue to kill Black people, until the criminal legal system starts treating ALL people the same, we will continue fighting for justice and equity for Quanice and all others unjustly killed and hurt and threatened by police and the courts.

This is just money. But what Portland needs is much more.
