Presenter name: Derek Bradley

Purpose of proposed legislation and background information:

This Resolution provides the formal scope of work that the ReThink Police Accountability Commission must complete during their work. The ultimate goal of this work is to provide details needed to establish a new police oversight system. The Commission will return to City Council with recommendations that fulfil the mandatory tasks laid out in this Resolution for consideration by Council.

Financial and budgetary impacts:

There is no direct financial impact. This merely seats a community group that has had staffing resources already allocated to assist it.

Community impacts and community involvement:

This will be a commission comprised of community members that will work to craft a new police accountability system that is mandated in City Charter. This Commission will interact with other community members and will ultimately layout the details for a new police oversight system that will be run by community members.

100% Renewable Goal:

Although it is incorporated into the sustainable procurement policy this specific resolution does not impact the city's use of energy or pursuit of the 100% renewable goal.
