

FREE SPEECH FIGHT ON!

Twice in ten days the police have broken up peaceful street meetings held under the auspices of the Communist Party. The last time, October 27th, the I.W.W.'s speakers were also arrested their meeting broken up. This shows that the attack on the Communists is but a prelude to a planned attack on all workers' organizations.

Portland has a history of the fight for free speech. The I.W.W.s before the World War, who were then the militant leaders of the workers, kept up the fight until they won the right to the streets. The capitalist class is today again trying to take away the right of free speech, won by the heroic fight of the I.W.W.'s; centering their first attacks against the Communist Party, which is today the militant leader of the working class.

"Fascist" Mayor Carson is trying to get the City Council to agree that no street meetings or park meetings shall be allowed without first securing special written permission of himself. Carson thus hopes to put an end to all meetings and demonstrations of militant workers. Every worker, Professional and Intellectual, who believes in the right of free speech should pack the Council Chambers, Wednesday in protest against this measure..

ALL OUT!!! DO NOT ALLOW THIS MEASURE TO BE RAILROADED THROUGH!
Carson and his henchmen are challenging the rights of the working class, openly following the lead of Hitler, Dollfus, Mussolini and Co. in their role of terror and violence.

We must follow the example of the heroic working class of France who organized a mighty united front of all beliefs, political and religious and succeeded in defeating the maneuvers of their fascist officials. We must answer Carson by uniting to force him and his henchmen to keep their hands off workers exercising what they are taught are their Constitutional rights.

Let them know we are determined to keep the streets, even if it takes a repetition of the FREE SPEECH FIGHT IN THE PAST.
