Dear council clerk,

I would like to request a time slot for communication in April please. I spoke today at city council and was wondering can I still send in written testimony about my concerns. Mr. Wheeler said the city auditor would get my request to investigate with a New audit performed by city auditor on Civic Life handling or lack there of services to SW neighborhoods.

To look into ORDINANCE No:190321 with new data that has since been released ASCETA audit of Civic Life. Civic Life is NOT following 3.96 code and city Standards. Civic Life ie Hardesty defunded SWNI our district coalition in the middle of a pandemic! Who does that a why? SWNI its still our District Coalition because the process to appoint Civic Life has not been followed per ONI and 3.96 standards. SW residents and neighborhoods have NOT been allowed to be heard or vote to have SW neighborhoods to be city run by Civic Life

How do I officially request an audit.? Civic Life was unable to provide the services that were promised and they still are not. I have been personality harmed by Civic Life (Hardesty)actions or lack there of again. Civic life has failed to follow the grievance process as out lined in ONI standards. Civic Life has failed to be inclusive to SW residents. An audit needs to be done on Civic Life once again because neighborhood Association in SW are being left out of the communication process.

Thank you
