Testimony to **Portland City Council** on the **Environmental Overlay Zone Map Correction Project, Recommended Draft**

Dear City Council, It's essential that you each support and adopt the Ezone Map Correction Project. This is necessary to replace existing inaccurate maps allow the City to meet its own policies regarding natural resource protection. This project represents substantial public investment as well as connection with property owners and has been a significant investment for the city and the community. Finally, given the climate crisis, this work provides a foundation from which to protect streams, floodplains, wetlands, and forest lands that sequester carbon, mitigate flooding and landslide impact. Thank you, Kyenne Williams || resident, voter, and citizen
