Hello,

My mother was born and raised in Portland. I was born and raised in Portland. I raised four children in Portland. I was a city letter carrier for thirty three years. I delivered mail all over this city from 1984 to 2017 when I retired. I believe I have a deep history with this city.

I moved away three years ago because I could see things were changing . We started getting things stolen. Tents and RV's showed up. Going to the park near where my children attended school became too dangerous for me to even take my grandchildren to play.

Without enforcement of ALL laws this town has become a nightmare. Please, please do more than just talk about things.

Janice
