- Background
- Project Goals
- Outreach
- Estimate & Schedule
- Questions

# Project Location

# 2020 project and Oregon DSL Consent Order

---

Before Bridge was built

After bridge built- during low flow

# Project Goals

---

- Provide fish passage per DSL Consent Order and ODFW approval
- Bury exposed sewer pipe in stream channel
- Stabilize channel and improve the natural process that allow erosive energy to dissipate
- Augment fish and wildlife habitat
- Enhance native plant communities

# Community Outreach and Engagement

- Project webpage
- Project update mailers
- Email updates
- Social media posts
- Focused outreach to adjacent property owners
- Contact with PPS Transportation to coordinate any school bus impacts
- Public presentations to Friends of Tryon Creek and the Tryon Creek Watershed Council
- Individual correspondence to answer community questions, take input, and address concerns.
