Hi John,

AT&T has been made aware for the appeal decision and would like to know base off this decision and the call I had with you earlier today, why the board decided to rejected verses asking for additional information? Because in past appeals it looks like decisions have been held off till additional information can be provided.

Also pertaining to the LA-RR report would you require a updated report are will a PE letter from the engineer stating that the FRP screening will hold up at the extended height of 15'6"? We would obtain that PE letter from the same engineers that provided the LA-RR report.

Thank you,
