Impact Statement

Purpose of Proposed Legislation and Background Information

Establish a grant agreement with Worksystems, Inc for summer interns through the SummerWorks program. Over the years, City of Portland has had a history of investing in young people through funding various programs in the areas of after school and recreational activities, youth

employment programs, creating seasonal job training, work experience, internship and job shadowing opportunities.

Since 2007, City Council has approved funding for youth employment and career preparation and encouraged those in the Summer Youth Employment Program (SYEP) as coordinated by the Bureau of Human Resources (BHR) [Ordinance No. 180874, 181765, 182138, and 190097]. Subsequently Council directed this effort to be known as the Summer Youth Connect/SummerWorks Employment Program coordinated by the Mayor's Office [Ordinance No. 182811, 185998, 186648, 188535 and 190798]. The proposed legislation does not change policies.

Financial and Budgetary Impacts

Funding for this grant is available in the FY 2022-23 adopted budget.

Community Impacts and Community Involvement

Working with the various high schools within the City of Portland, Worksystems, Inc. has developed SummerWorks, a comprehensive summer experience program for youth ages 16- 24 with barriers to employment including at-risk of disconnecting from school. The summer interns will have the opportunity to work alongside City employees to develop and further hone their employment skills. The goal of the SummerWorks Program is to enhance self-reliance and employability of the youth by assisting them in the development of work and life skills.

Over the past several years, Worksystems, Inc. has been the primary lead in developing the outreach necessary to reach youth with barriers to employment including those at risk of disconnecting from school. Without the efforts of Worksystems, Inc., the City would not be able to identify potential applicants as they outreach to many community groups and organizations throughout the City in order to draw applicants.

100% Renewable Goal

This action does not increase or decrease the city's total energy use, nor does it increase or decrease the city's renewable energy use.

Budget Office Financial Impact Analysis

The Police Bureau will use existing resources in their current year budget to cover the initial one-time costs of \$80,000 for the equipment to start the pilot project. According to the bureau, the ongoing costs for the equipment will depend on the final technical specifications of the program equipment.
