Journey's Foundation	120 youth (6th, 7th, 8th grade and high school) 100% of those served identify as Black and/or African American. A majority of those served come from a majority low-income neighborhoods in Portland Metro. We primarily serve and work with Black and/or African American youth from Portland and the greater Metro area. The children and teenagers served often come from unsafe or insecure home environments, with little guidance or mentorship and few positive adult role models. Participants are affected by gun and gang violence that disproportionately impacts the Black residents of Portland. Black Oregonians suffer from gun death at a rate 450% higher than White Oregonians, despite the Black population accounting for only 5.9% of this city.	<u>Donated to individuals:</u> 60 MacBook Air 60 Wifi Capable iPads 60 iPad Pencils 60 iPad Cases	\$10,000

Digital Divide Response WiFi Project

Subrecipient Organization	Project Description	Grant Award Amount
AfroVillage PDX	Through the lens of Clean Tech Futurism, AfroVillage PDX works in the areas of Housing Justice, Healing Justice, and Digital Justice. The Old Town Free Wifi Network project builds a local WIFI6 or fixed-wireless network that is meant to provide secure, private, fast-internet access to a priority population at no or low-cost. The Network aims to serve low-income housing residents, social service organizations, and small businesses in Old Town and shall be designed and operated as a cooperative among community partner organizations.	\$400,000
TOTAL		\$400,000
