

Written Testimony - Agenda Item 225

Agenda Item	Name or Organization	Position	Comments	Attachment	Created
225	Landon Freeman	Support	I think it's reasonable to select bids for USPS redevelopment through best value process. I am concerned that my taxes could be going to developing infrastructure for more luxury units when we need affordable housing. I also don't think automobile traffic should be a priority in this development as this could serve a needed link to rail and safer/walkable streets are the way to unlock that potential.
