Subject: Gateway LID

Hello Andrew

We are now getting to the point where there is a lot of light at the end of the Gateway LID Tunnel. We are on the cusp of creating a brand-new neighborhood with new streets, curbs, sidewalks and trees. I'm very pleased to have worked with you on this most important project.

Going forward, I would like to tell you the following:

- I am supportive of utility undergrounding for all of the blocks that connect to NE 97th, NE Couch and NE Davis Streets.
- I support council approval to start construction on the PDOT street improvements at NE 97th, NE Couch and NE Davis.
- I further support moving ahead with the NE Couch and NE Davis Street vacations which are on the Westside of NE 97th Ave.

Thank you, Andrew for your diligent work to get these worthy projects approved, designed and now built.

Thanks, and have a good day.

Joe Westerman
