Dear Representatives,

I strongly urge you to extend this amendment. The New York Times recently ran an article showing heat maps of cities in the U.S. While Portland still has some canopy cover, it is significantly dwindling from what was shown even a few years ago. We cannot easily get this back, and irreparable harm is being done to our city's livability and to our environment. For the sake of this community and to offset climate change, I strongly urge you to extend the #11 Amendments. Thank you for your time.
