That's what we get voting for
ideologues like [@JoAnnPDX](#) [@DanRyanPDX](#)
[@CommRubio](#) and [@DAMikeSchmidt](#) They
care more about their ideology and
homeless drug addicts from other
states than law abiding citizens of
Portland. It's not that complicated.
The pendulum has swung too far.

Things are spiraling. My mom's an organizer with United in Spirit; the Muslim, Jewish & Christian communities (esp. Catholic & LDS) have been doing clean-ups & advocacy. Last time, I led teens & it was basically rated R: freshly used condoms (ugh), needles, underwear, waste etc.

Multnomah County, OR  @multco
Morning reminder: Close those curtains and fill your ice trays. Wet a washcloth, towel or clothes and pop them into the freezer, too. Consider setting a reminder for yourself to check in on a neighbor. Make sure your pets have a cool space to escape the heat and plenty of water.

Recreation is for everyone, and we will not let cost be a barrier. The Access Pass allows every Portlander to participate in a wide array of activities. This is a proud moment for our City, and our continued thanks go to Portlanders for passing the Parks Local Option Levy.

During this heatwave, people working outside in construction or agriculture jobs, or inside hot warehouses, should take extra precautions. Take rests in cool spaces and hydrate. Employers should also familiarize themselves with [@OSHA_DOL](https://www.osha.gov/heat)'s rules for heat: [osha.gov/heat](https://www.osha.gov/heat). pic.twitter.com/iRBQYnRnPF

Employers are Responsible for Protecting Workers from Heat Illness

By law employers are responsible for providing workplaces free of known safety hazards, including extreme heat.

It is your responsibility to:

- ✓ Provide workers with water, rest and shade.
- ✓ Allow new or returning workers to gradually increase workloads and take more frequent breaks during the first week of work as they build a tolerance for working in the heat.
- ✓ Plan for emergencies and train workers on prevention.
- ✓ Monitor workers for signs of illness.

Really think it's time for a large group of people who are ready to do their own sweeps start controlling neighborhoods like gangs. The homeless need to be funneled to a specific area. The trash is too much so just burn it if the city refuses to pick it up. And hold the block down

Or maybe we can hire the homeless to do it themselves. We just need to decide on a destination 1 area for those needing help and an area for those intent on staying high. That way the resources know where to go rather than running around the city.
