

**City of Portland, Oregon - Bureau of Development Services**1900 SW Fourth Avenue · Portland, Oregon 97201 | 503-823-7300 | www.portland.gov/bds**Permit Revision Submittal Requirements and Application**

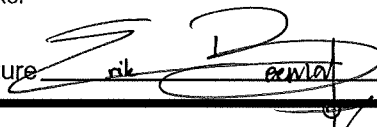

A Permit Revision is required when there are proposed changes to the project after the permit has been issued. This may arise due to discrepancies between the city-approved permit drawings and actual field conditions, or the customer has changed their mind about an aspect of the project. In all cases, a revision to the existing permit must be submitted, reviewed and approved.

Minimum Submittal Requirements (check all boxes and sign below):

- ☒ A copy of this application.
- ☒ One PDF copy of plans for electronic submittals or three copies for paper submittals.
- ☒ All plans must clearly reflect the proposed change(s). Changes must be bubbled.
- ☒ Drawings and calculations must be stamped and signed by the Architect and/or the Engineer of Record, if applicable.
- ☐ Project narrative for extensive revisions.
- ☒ One PDF copy of calculations and other supporting documents for electronic submittals or two copies for paper submittals.
- ☒ Copy of Inspector's correction notice, if the revision is due to an inspection correction. One PDF copy for electronic submittals and two copies for paper submittals.

Applicant Information:Applicant Name Erik Beeman - DPI SolarStreet Address 20345 SW Pacific Hwy Suite 103City/State/ZIP Sherwood OR 97140Email erik@dpisolar.comPhone 971-990-1924Value of Proposed Revision \$0Issued Permit # 23-018554-000-00-RSJob Site Address 15237 NE Hancock Ct.City/State/ZIP Portland OR**Description of Revision**

Replaced solar modules with a different brand, due to supply chain issues, and revised the electrical schematic from a line-side tap to a backfed breaker

Applicant Signature Date 4/23/24**Fees:**

An invoice with permit fees will be sent to the applicant once minimum submittal requirements have been verified. Permit Revisions are subject to fees associated with plan review, processing and any increase in project value.

The Bureau of Development Services fee schedule is on the BDS web site: www.portlandoregon.gov/bds/article/102792

RE: Chrastil Solar – RESIDENTIAL SOLAR PLANSET UPDATE TO ISSUED PERMIT
15237 NE Hancock Ct., Portland OR 97230
Permit Number: 23-018554-000-00-RS

To Whom it May Concern,

This note is informational only and is intended to streamline the understanding of the submitted changes. They changes are mostly clerical, and are in regards to electrical revisions only.

This solar planset had been in process since early 2023 and was recently *Issued* for construction on 3/21/24. After receiving the approved permit, we moved towards coordinating installation with the homeowner and our vendors (materials). During this process it was found that the solar modules originally quoted in the design are no longer readily accessible for procurement and a suitable alternative needed to be added.

We have revised the planset pages to depict the updated information of the new solar modules, namely the brand and product number. The roof layout is unaltered. We also took this [revision] opportunity to update our electrical interconnection as well. We decided to do away with a physical supply side tap, and have converted this to a backfed breaker interconnection. We have updated the electrical schematic page to show this as well. Other than the solar module brand change, all other aspects of the home and solar system remain unchanged, therefore I have only included the pages of the planset where the updates occurred. Please contact me if there are any questions or if anything else is needed. Thank you!
