# A Safe Bed for Every Neighbor, Every Night

A Blueprint for Ending Unsheltered Homelessness

**Mayor Keith Wilson** 

# Rising "Domicile Unknown" Deaths

Source: Review of deaths among people experiencing homelessness in Multnomah County, 'Domicile Unknown' report

40% of fire calls are unsheltered homelessness

17% of all police calls are "unwanted or suspicious person," or welfare checks

53% of public defender clients are homeless

**86%** disapprove of Portland's homelessness strategy<sup>1</sup>

82% support adding more shelter beds<sup>1</sup>

Homelessness in our city **increased by 65%** from 2015 to 2023, prompting **\$1.7 billion** in spending<sup>2</sup>

## Portland's compounding livability and economic issues

Lagging Job Creation
Families and Workers Choose Other Cities

Fewer and Weaker Small Businesses
Increasing Commercial Vacancies
Less Downtown Foot Traffic
Declining Livability
Shrinking Tax Base

The suffering are not nameless or faceless...

... we must shift from maintenance to crisis response

## A Crisis Response Strategy...

- Prioritize Emergency Shelters
- Scale to Meet Need
- "No Wrong Door" Strategy
- Complement with Day Centers
- Enforce Existing Laws

## ... Will Enable Us To:

Pivot to "Built for Zero" Strategy

# What is Missing?

**Emergency Night Shelters** 

# The Blueprint

How Portland Must **Respond** to the Crisis

### **Modify 2017 Shelter Guidelines:**

 Stand up a network of nighttime emergency shelters

### **Changes to 24-Hour Shelters:**

- **Reintroduce** 90-day stay limits
- Require engagement with case managers
- Follow bed utilization rules

"There is no regulatory requirement from HUD or any other federal agency that shelters must operate 24/7. The cost of doing so is understandably very expensive. It requires three 8-hour shifts rather than one."

- Mark Johnston, President Obama's Assistant Secretary to Reduce Homelessness and Shelter Portland Council Member

- Rapidly stand up a network of nighttime emergency shelters so every unsheltered Portlander can find a safe bed
- Rapidly deploy a network of day centers to provide a 'warm handoff' to assess unique needs, provide individual service
- Ensure support services to help folks to the next best step

- Partner with neighborhoods, businesses, non-profit organizations, and faith communities to coordinate facilities
- Better tracking to better understand inflow and diffusion
- Reunification to help return people to their loved ones
- Enforce community norms on camping, unregistered vehicles, and dangerous RVs
- End the 72-hour posting requirement for unestablished encampments, and no more moving camps and RVs from street to street

## **Nighttime Emergency Shelters Are:**

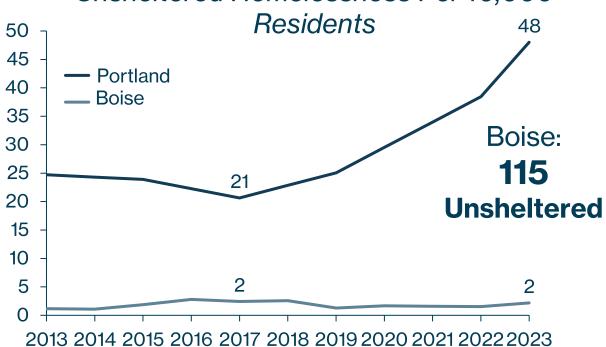

- Cost-Effective
- Scalable
- Enforce "Stay Limits"
- Near Transit Corridors
- Complemented by Day Centers

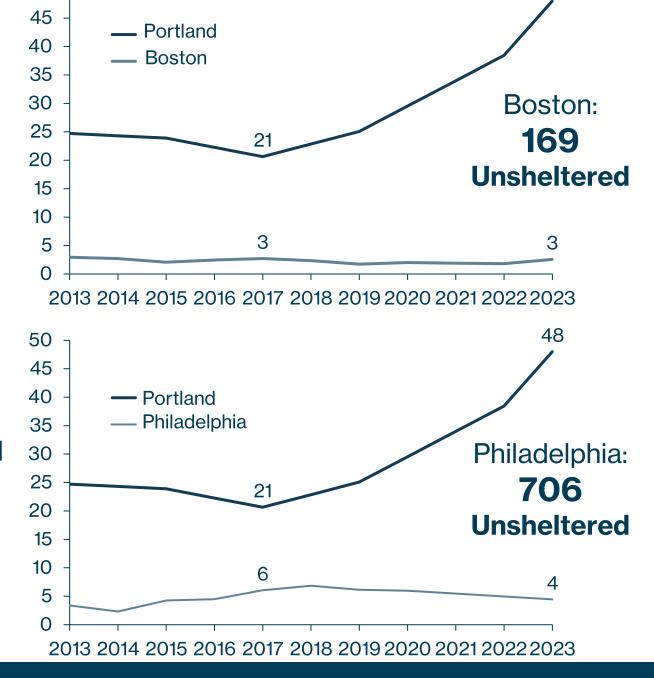

- 24-hour shelters have an important role
- They're also far more expensive per bed
- Relying exclusively on 24-hour shelters defunds
   experienced operators and innovative solutions
- We need solutions without delay
- We need stay limits to encourage transition to housing
- We need a safeguard for individual setbacks

## We've Initiated a Crisis Response...

"I like it. I feel safe in there."

"Being outside in the cold was no good.

Easy to get sick, hard to get better."

- Guest Quotes, Oregonian, January 11, 2025

## ... and We're Not Alone

### Enormous risk if we do not act...

- ...but great opportunity if we do
- Every budget (city, county, state) will be positively impacted
- Portland alone is spending hundreds of millions managing the crisis

### Regionalism opportunity

 Multnomah County, Metro Council, Regional Mayors, Metro Representatives, and Senators are leaning in and want to partner

### Portland's success is Oregon's success!

A strategy that can be used in every struggling community in Oregon
