The Community Grants 2025 application period is now open!

This fourth round of funding will support community-led projects that reduce emissions and improve climate resiliency in ways that advance economic, social, and climate justice for our under-resourced communities. [Learn more and apply online by May 27, 2025.](#)

PCEF Virtual Briefing and Q&A: Climate Investment Plan full draft

Community Event

This is a virtual information event about the CIP full draft. We will present an overview of the new draft, explain our process and how we used feedback, and share how the public and our partners can give us input on this next draft.

May 22, 2023 12:00 pm – 1:00 pm

About this event

Who: Anyone interested in learning how they can help shape the City's Portland Clean Energy Fund program investments that address the climate crisis while advancing racial and social justice.

What: Attend this virtual information session from 12:00 - 1:00 p.m. to hear an overview of [this new CIP full draft](#), how we used the feedback we gathered from the first draft, and learn how you can give us input during this phase of the process.

Background

PCEF is a City of Portland program that generates \$100 million annually to fund programs and projects that address climate change while advancing racial and justice. At the direction of Portland City Council, PCEF is developing a 5-year Climate Investment Plan to guide the investment of PCEF funds to achieve major carbon reductions in ways that benefit those most impacted by the climate crisis.

News Article

We previously published the [preliminary draft of the CIP](#) to start the feedback process. We engaged nonprofits, industry experts, subject matter experts, the general public, and our public partners. The comment period ended April 7, 2023. From this feedback, we strengthened the plan to issue the CIP full draft for additional input.

How we use feedback

We asked and you answered. We are grateful to our community members and partners who have given us valuable feedback throughout this process. You can read about how we have incorporated comments into the CIP development on our [website](#).
