Home Tour and the Commercial Salvage Workshop educate construction industry professionals on green building and remodeling practices, including the salvage and recycling of building materials. Because these events are consistent with Sustainability Center's objectives in the area of construction and demolition debris recycling programs and the C&D waste reduction initiative, Metro has agreed to co-sponsor these events.

B. City's Responsibilities:

The City shall deliver the following results to Metro for the Build it Green! Home Tour:

- A fully-organized tour of up to twenty remodeled and new homes featuring advanced sustainability measures. Areas to be highlighted by the tour include construction waste management, sustainable site development, ecoroofs, solar, water and energy conservation, low-impact living and transportation alternatives.
- Acknowledgement of Metro as a sponsor in printed and web-based outreach, including the tour guide and relevant advertising.
- Event postings to community calendars and social networking sites.
- Ten (10) compensated admissions to Metro staff.
- A follow-up letter highlighting the results including; attendee counts, quantitative survey results, and successes.

The City shall deliver the following results to Metro for the Commercial Salvage Workshop:

- Development, promotion and implementation of a one-half day building material salvage workshop for the commercial construction industry. The workshop would focus on building partnerships and familiarity between the used building material industry and commercial construction contractors. The hands-on workshop will provide information and tools to facilitate the salvage of building materials from commercial remodels and demolition as well as incorporating reuse on new construction projects. Three or four workshop presenters will cover the following topics: Why reuse is important, the timing of successful building material reuse, the services offered by the building material reuse industry, financial and tax benefits, examples of recent projects where reuse was successful, useful tools and resources for contractors, applicable local codes and requirements that impact reuse practices. The event will be followed by a tour of the Habitat for Humanity of Greater Portland ReStore in Southeast Portland.
- Management of all on-site logistics including the use of space agreement, insurance, tables, chairs, lighting, clean-up and refreshments for the event.

Scope of Work

- Promotion of the event through Metro and City websites, BDS Plans Examiner, Postcards in the Development Services Center, and trade association newsletters. Metro staff will assist City staff with the development and distribution of a joint press release for the event.
- Sign-up of 20-50 participants, mostly commercial construction project managers, superintendents, demolition contractors, and salvage service providers.
- Acknowledgement of Metro as a sponsor in printed and web-based outreach, including workshop material packet and relevant advertising.
- A follow-up letter to Metro highlighting the results, including attendee counts, quantitative survey results and successes.

C. Budget and Terms of Payment:

Upon completion of tasks in section B. of this Scope of Work, but no later than June 30, 2012, Metro shall pay City EIGHT THOUSAND AND 00/100THS DOLLARS (\$8,000.00) in one lump sum on a Net 30 day basis upon approval of City's invoice.
