Subject: Proposed Garbage Fines

Dear Sir or Madam,

I am a resident of inner NE Portland in the Boise-Eliot/Irvington Districts. I wanted to express my concern regarding the proposal to impose fines to homeowners for waste that is discarded in recycling containers and/or vice versa. I live on a street with very heavy foot traffic and regularly observe pedestrians throwing waste into my receptacles when they are placed on the curb for pick-up. I do not think it is fair or within reason to fine homeowners for the actions of others.

I ask that you and the City Council seriously consider this issue when deliberating this proposal.

Best regards,

Michele Koder
