TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

**TELL MAYOR HALES AND PORTLAND CITY
COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK
DAYS FOR PORTLAND WORKERS WITHOUT DELAY.**

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

*Please check this box if we
can count on you to take
one more action!*

TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

WORKING AMERICA

SIGN HERE! TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

WORKING AMERICA

SIGN HERE! TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Tell Mayor Hales and Portland City Commissioners:

As the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Tell Mayor Hales and Portland City Commissioners:

SIGN HERE! TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Tell Mayor Hales and Portland City Commissioners:

As the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

WORKING AMERICA

SIGN HERE! TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!

WORKING AMERICA

SIGN HERE! TELL MAYOR HALES AND PORTLAND CITY COMMISSIONERS TO VOTE IN SUPPORT OF EARNED SICK DAYS FOR PORTLAND WORKERS WITHOUT DELAY.

The Portland mayor and city council have already heard from more than 3,000 Working America members, urging their support of an Earned Sick Days ordinance. They have had a public hearing where workers testified, and there's been a thorough community process. Now is the time for a vote. We can't afford another bad flu season without sick days for our hardworking families.

- ✓ Earned sick days are good for public health because people won't spread illness at work—to coworkers or customers.
- ✓ Health care costs less when people can get early treatment.
- ✓ Earned sick days are good for Portland families because they won't lose needed income (or their jobs!) when sick, and children can recover at home—not at school—with a parent.

Dear Mayor Hales and Portland City Commissioners:

We, the undersigned Working America members, urge you to vote on the proposed Earned Sick Days ordinance right away. All workers in Portland deserve the time to recover when they're sick, and the time to care for a sick child, too. That's the kind of community we want to live in, where no one is forced to choose between their health and their job.

Please check this box if we can count on you to take one more action!
