Subject: Pembina

We should reject the Pembina Propane Proposal for North Portland. The City needs to consult with independent experts on issues such as climate change, safety and jobs as opposed to relying on Pembina and the Port for its staff report;

All neighborhoods within the blast radius of the trains, boats and facility need to be apprised of the risk with at least 30 days notice before the hearing; The energy used to power buildings is the largest source of carbon pollution in Portland and should be monitored; Approving Pembina would be counter to our goal of being a national leader in responding to climate change.

Regards
