Subject: The Pembina Propane Proposal

To whom it may concern,

I have issues with the Pembina Propane Proposal.

I believe:

-- The City of Portland should consult with independent experts on issues such as climate change, safety and jobs as opposed to relying on Pembina and the Port for its staff report.

-- All neighborhoods within the blast radius of the trains, boats and facility need to be apprised of the risk with at least 30 days notice before the hearing.

-- The energy used to power buildings is the largest source of carbon pollution in Portland and should be monitored.

-- Approving Pembina would be counter to our goal of being a national leader in responding to climate change.

Thank you for you time,

Dave Dunkak
