**Subject:** Pembina Proposal

Hello,

I'm a resident of North Portland, and I'm writing to request that you reject the Pembina proposal, and any new development that supports the extraction, transportation or combustion of fossil fuels. Portland is committed to being a leader in fighting climate change, and it's clear at this point we need to make a stand that fossil fuels need to stay in the ground.

A bit radical by mainstream standards, perhaps? But we need to get radical.

In the long term, fossil fuel infrastructure is a losing bet for communities.

Thanks,
