

Dear Portland Planning and Sustainability Commission members,

I plan to be at the rally and hearing on April 7 regarding the proposed Pembina Pipeline. I am strongly opposed to this project. Climate change is real. We must change how we live and act. Fossil fuels must stay in the ground. It is morally wrong to pass-through fossil fuels while trying to reduce Portland's carbon footprint.

For the future of our planet, I urge you to reject the proposal to build the proposed Pembina propane terminal.

Thank you, Chris
