

Dear Planning Commission -

Like many I know, when I started college I found some friendly folks in my student union offering free water bottles and tee shirts if I signed up on a credit card. 20 years and thousands of dollars in fees and interest later, I deeply regret my decision to accept the gift.

How is trading the safety of our city, the health of our children, and the future of our climate in return for 35 jobs any different?

This Propane Terminal Project is antithetical to the values of this city and I strongly urge you to vote against it.

Sincerely,

Daniel Yuhas
