Presenter name: Andrew Scott, Director, City Budget Office

Purpose of proposed legislation and background information:

In the Overexpenditure Ordinance, City bureaus request budget adjustments to avoid overexpenditures by fund, bureau, and major object (i.e. category). This ordinance represents the changes requested by bureaus, as adjusted by CBO and the Mayor's Office.

Financial and budgetary impacts:

Approval of the exhibits to this ordinance reflect hundreds of individual budget changes in 20 funds totaling appropriation changes of \$4.2 million. These changes are summarized in exhibit 2.

Community impacts and community involvement:

The Overexpenditure Ordinance happens late in the fiscal year and, in a short timeframe, addresses mostly technical issues. There is little to no time for community involvement other than the public hearing. Community impacts in the ordinance are minimal as they reflect changes to budgets to match anticipated actual spending in order to avoid overspending any given appropriation category.
