Hi Alan,

Attached is a 9 page pdf containing the plans and elevations for John's project. I have also attached an image of the exterior rendering. Please note the plans and elevations are working drawings, not presentation drawings. Please let me know if you need presentation drawings showing furniture. I will be happy to send those over. Thanks a lot,
Phil

Phil

Thanks for the plans. I will send on to
Kal Nimer, The Nimer Group, the investor.

Alan Sasaki

Kal and I have been communicating over the past few weeks via email. He has been very helpful with the stone panels. He does already have the elevations and an older version of the plans. It certainly won't hurt to send him the updated files I emailed you today however. Thanks a lot,
Phil
