Please want to increase protection for existing trees. Neighborhoods are seeing large trees being removed on drives all in the name of "density". These trees are irreplaceable and the present guidelines allow for too much removal & far too little (science) replacement. If Portland wants to be a "Great" city, not just →

a new comer destination - it must work harder to preserve  
its history - including homes & trees.

Otherwise with the intense promotion of density which  
only creates more / bigger / higher / more expensive density - the  
trees will be lost & their 'gift' to use - the air we  
breathe & the heat they absorb & block will be lost.

Be a 'great' city ... not just a 'trendy' city - step up  
& protect the trees. Thank you! - Jessie Lindsay

Life long Portlander &  
protector of many trees.  
wonderful
