In interests of time, I provide written comments.

For UFC: Thank you for considering our comments.
The UFC will provide official testimony prior to/at
to the August hearing

For Wak (personal): Consideration of urban canopy
should be environmental-science based. What is
needed to ameliorate effects of development?
Lloyd ~~Str~~^{District} is a particular concern. An "eco-district"
should vigorously promote an enhanced canopy.
Lloyd District may be particularly susceptible
to CO pollution. How was the canopy target
built in existing conditions?
Section 33.110.255 should be strengthened to require
large form trees. Thank you, Mark Bello
