Planning and Sustainability Commission,

I am writing to you today to request that the Portland Japanese Garden's 1963 panoramic view be added to the Central City Scenic Resources Inventory of protected views. The Portland Japanese Garden should be allowed to restore and then protect its original panoramic view. The Garden is designed specifically around an expansive panoramic view encompassing the rose gardens in the foreground, the downtown skyline in the middle-ground and the Cascades in the far-ground. This view is critical to the healing experience of beauty and tranquility that is at the heart of the Garden's value to our community.

I am a horticulture volunteer the past 8 years and a garden member since 1971. Plants and tree grow and need to be maintained unless they are out in the forest. Maintenance on the trees in the foreground view from the garden have never been maintained and some removal is necessary.

The Portland Japanese Garden is the best Japanese garden outside of Japan! It is a world-class treasure for our community. Our community is currently making a \$33,500,000 investment to make sure it continues to serve future generations as a world-class garden and cultural center. **Please protect the view that is so essential to its beauty and tranquility.**
