Subject: PSC Fossil Fuel Zoning Testimony: I want a full ban!

Testimony:

Dear Portland City Council Members,
Please fulfill the policy promise you made last year to not allow new fossil fuel infrastructure in Portland. It was a bold move that sent an important message to the entire country. You must honor that policy through the city code. We do not need an exception for facilities of 5 million gallons or less. Any expansions allowed at existing terminals must happen only for local demand and include criteria for safety and climate impacts in the non-conforming use review process.
Thank you, Lynn Youngbar
